Directed by **Curt Johnson** (2002 Academy Award-winning *Thoth*).

Featuring **Katherine Heigl, Jessica Biel, Moby, Joe Mantegna,** and **Joss Stone.**

Inspired by a post-9/11 FBI alert identifying animal rights activists as the number one domestic terror threat, Johnson sought out embattled activists and their detractors to determine the actual danger posed by the movement. Johnson interviewed the SHAC7, young activists who violated federal anti-terrorism laws by encouraging direct action protests via their website. The freedom of speech issue surrounding the SHAC7 trial serves as the lightning rod of *Your Mommy Kills Animals*, drawing in a spectrum of commentators with numerous points of view and passionate ideologies. By avoiding confrontation and polemic, Johnson's even-handed exploration invites any audience to witness the wiretapping, intimidation, prosecution, and imprisonment of peaceful activists whose only crime was speaking their minds on a website.
